

SOKKIA

HL3D HANDLASER

COMPACT · LIGHTWEIGHT · ACCURATE · AFFORDABLE

Introducing the Sokkia HL3D Handlaser. A lightweight, yet rugged, laser that instantly gives you distance and angle measurements without prisms or reflectors. This state-of-the-art laser can be used for multiple purposes. Whether it's short or long distances, you'll get an exact measurement every time. No more measuring wheels, sticks or tapes, you'll have everything you need in one compact laser. And it all comes at an affordable price.
